VÕ NHẤT TÂM

Backend Developer - 9 Years of Experience

SUMMARY

- As a back-end developer with many years of experience, I have strong passion for creating efficient and scalable services. I'm willing to join a big project and give a hand to build and maintain system that meet the needs of clients and end-users. My strong problem-solving skills allow me to identify and solve many issues in a timely and efficient manner.
- I'm looking for a good environment in order to improve personal technical and management skills, learn new technology as much as possible.
